Draw the Data Flow Diagram for student enrollment process of a Distance Learning University. The student enrollment process works as follow:

- The student sends an application form containing his/her personal details, and his/her desired course.
- The university checks the course availability and necessary academic qualifications of the student.
- If the course is available, the student will be enrolled in the course and the university confirms the enrollment by sending a confirmation letter to the student.
- If the course is unavailable, the student will be sent a rejection letter.
